

2021 #MILLIONS MISSING

In honor of #MillionsMissing and Myalgic Encephalomyelitis/Chronic Fatigue Syndrome (ME/CFS) International Awareness Week, we are sharing information about a FREE CME webinar that focuses on ME & Long COVID! This activity will provide valuable clinical information and benefit your patients and practice!

Post-Viral Syndrome and Myalgic Encephalomyelitis/Chronic Fatigue Syndrome (ME/CFS): What Every Clinician Needs to Know

LEARNING OBJECTIVES / DESIRED OUTCOMES

At the completion of this educational activity, participants will:

1. **DESCRIBE** ME/CFS as an important clinical and public health problem in the context of viral pandemics and other viral infections.
2. **EXPLAIN** the need for clinicians with expertise in the diagnosis and management of ME/CFS and resources to support patients and families.
3. **LIST** the symptoms of ME/CFS, diagnostic criteria, the importance of putting ME/CFS on differential diagnosis, and strategies for symptom management, including common co-morbidities and conditions.
4. **DESCRIBE** the symptom of post-exertional malaise (PEM) and recall that it is characteristic of ME/CFS.
5. **RECOGNIZE** recent scientific discoveries and potential treatment advancements for ME/CFS.
